[linkedin.com/in/dhiren-prajapati1986](https://www.linkedin.com/in/dhiren-prajapati1986) | 1-Month Notice Period | Open to Remote & Relocation Worldwide

PROFESSIONAL SUMMARY

Magento 2 / Adobe Commerce Architect with 13+ years of experience designing and scaling enterprise eCommerce platforms across 7 countries (US, UK, Germany, Australia, France, UAE and India). Delivered 27 end-to-end projects while leading cross-functional teams of up to 8 engineers. Expert in Magento 2 architecture, custom extension development, Hyva and PWA Studio themes, REST/GraphQL APIs, ERP integrations, and Adobe Commerce Cloud. Proven track record in Magento 1 to Magento 2 migrations, headless commerce, API-driven omnichannel systems, and high-performance store optimisation for international enterprise clients.

Career Highlights

27 Projects Delivered	13+ Years Experience	7 Client Countries	8 Max Team Size
---------------------------------	--------------------------------	------------------------------	---------------------------

KEY ACHIEVEMENTS

- Delivered 27 Magento 2 / Adobe Commerce projects across 7 countries: US, UK, Germany, Australia, France, UAE and India
- Architected and developed 20+ custom Magento 2 extensions: payment gateways, ERP sync engines, and shipping integrations
- Led engineering teams of up to 8 developers across enterprise eCommerce projects, consistently delivering on schedule
- Executed 5+ Magento 1 to Magento 2 migrations for live production enterprise stores with zero-downtime go-lives
- Implemented REST and GraphQL APIs enabling omnichannel commerce and powering native iOS/Android mobile applications
- Improved high-traffic Magento store performance using Redis, Varnish, Full Page Cache, Elasticsearch, and database query optimisation
- Delivered Arabic RTL bilingual Magento platforms for Saudi Arabia and UAE clients including a Guinness World Record-holding brand
- Spearheaded Hyva Theme adoption across projects, reducing frontend build time by 40% vs legacy Luma implementations

MAGENTO ARCHITECTURE EXPERTISE

- Magento 2 Architecture and Best Practices | Custom Extension / Module Development
- Hyva Theme and PWA Studio Development | Magento 1 to Magento 2 Migration Strategy
- Adobe Commerce Enterprise Implementation | Multi-Store and Multi-Currency Architecture
- REST and GraphQL API-Driven Commerce | Third-Party Integrations (ERP, CRM, Payment, Shipping)
- Performance Optimisation: Redis, Varnish, Indexing, Caching | Headless Commerce Architecture

Database	MySQL, Query Optimisation, Elasticsearch, Redis Cache, Varnish Cache, Magento Indexing
DevOps/Cloud	AWS, Docker, CI/CD Pipelines, Git, Bitbucket, Magento Cloud CLI, Cloud Environments
Leadership	Technical Architecture, Team Lead (up to 8 devs), Agile/Scrum, Direct Client Communication

PROFESSIONAL EXPERIENCE

Senior Software Engineer / Magento Tech Lead

SV Global Design Pvt. Ltd. | New Delhi

Jan 2025 - Present

- Leading a team of 6 Magento engineers with daily standups, sprint planning, and architecture reviews maintaining delivery velocity and code quality.
- Designing and developing custom Magento 2 extensions using DI, plugins, and service contracts, reducing order processing errors by 30%.
- Architecting scalable Magento themes with complex frontend customisations using Layout XML, Knockout.js, and RequireJS.
- Integrating payment gateways, ERP systems, and shipping platforms via REST API for a product-based Magento platform.
- Improving store performance using Redis caching, Varnish FPC, indexing optimisation, and database query tuning.

Senior Software Engineer / Magento Team Lead

Mavenbird Technologies Pvt. Ltd. | Ahmedabad

Aug 2023 - Sep 2024

- Led Adobe Commerce Enterprise (B2B and B2C) development for 5 international clients across US and UK, from architecture to production go-live.
- Coordinated a 5-member team delivering all 5 projects on schedule with zero critical post-launch defects and 99.9% platform uptime.
- Managed Adobe Commerce Cloud infrastructure: CI/CD pipelines, environment setup, and performance monitoring.
- Led direct client communication for international accounts, securing 2 contract renewals through consistent delivery and trust.

Team Leader - Magento

Brightness Software Development I Pvt. Ltd. | Ahmedabad

Sep 2022 - Jun 2023

- Managed and mentored a team of 8 Magento developers, introducing agile sprint cycles that improved on-time delivery from 60% to 90%.
- Delivered 4 Magento 2 projects for Australia and UAE clients covering Hyva theme development, API integrations, and performance optimisation.
- Reduced average bug resolution time by 35% through structured issue triage meetings and a shared code-review checklist.
- Spearheaded Hyva Theme adoption, cutting frontend build time by 40% compared to legacy Luma implementations.

Senior Magento Developer

DRC Systems India Ltd. | Gandhinagar

Jan 2018 - Sep 2022

- Delivered 8 Magento 2 enterprise projects for clients in India, Germany, and France spanning B2B portals, multi-store, and headless commerce.
- Built custom ERP (SAP/Odoo) sync modules, inventory management systems, and payment integrations, eliminating 100% of manual data entry.
- Developed REST and GraphQL APIs powering Flutter iOS/Android mobile apps without duplicating back-end logic.
- Implemented AWS-hosted cloud monitoring and backup achieving sub-2-second page loads; trained 5 junior developers (3 promoted within 18 months).

Senior Magento Developer

Dolphin Web Solution Pvt. Ltd. | Ahmedabad

Jan 2015 - Dec 2017

- Led 5 Magento 1 to Magento 2 migrations with zero-downtime go-lives, security patching, and legacy codebase modernisation.
- Built fully custom themes and modular extensions from scratch, reducing maintenance costs by ~25%.

Magento Developer

Czargroup Technologies | Ahmedabad

Aug 2012 - Dec 2014

- Developed Magento back-end modules and custom PHP functionality; reduced security vulnerabilities by 40% through code hardening.

Web Developer

3-Steps Ahead Technology | Ahmedabad

Oct 2011 - Jul 2012

- Built front-end and back-end web modules using PHP, HTML, CSS, and JavaScript; resolved critical pre-launch security vulnerabilities.
